Protecting you for life's best moments.

T-LINK®

MOVE FREELY

The RPB T-Link has been designed to move with you, not against you. With your comfort and job our main focus, the T-Link transforms how you work, advancing your safety and increasing productivity.

Your ability to see has been at the forefront of our design process, with the T-Link boasting a large visor that enables you to easily connect with your surroundings. This is further supported by our Tychem® hood that securely attaches to the headtop, ensuring your downward and peripheral vision is never compromised. The soft breathable inner-bib and extra tuck-in collar ensures maximized comfort and helps to direct air down your body for cooling.

Fitted with a padded headliner and head suspension system, the headtop's weight is evenly distributed to enhance your experience of comfort, relieving you of aches and strains on your neck. Being fully adjustable ensures the respirator fits securely to all head sizes, maximizing stability and always moving with your head. Our innovative design ensures you have a greater range of movement, so you can focus on the task at hand.

The T-Link is certified to the standards below:

OPTIONAL COMFORT-LINK™ FIT SYSTEM

The Comfort-Link™ is an optional, fully-adjustable fit system that allows total control of helmet and head placement as well as making sure the T-Link moves with your head.

1-866-494-4599 | gvs-rpb.com

ISO9001
CERTIFIED COMPANY

Padded headliner supports weight distribution while relieving you of the effects of any pressure points.

Air flow and distribution is fully adjustable with the air deflector system to suit personal preference.

Optional ANSI Z87 approved safety lens (EN166).

Large viewing window for exceptional downward and peripheral vision.

Fixed lens frame ensures the lens will never hit your nose or optical aids being used.

Optically clear peel-off and cassette lenses available.

Option of bump cap or ANSI Z89.1 hard hat protection (EN397).

Two cape materials available: DuPont™ Tychem® 2000, DuPont™ Tychem® 4000.

Breathing tube easily attaches to the respirator and swivels to eliminate tangles. Centralized location ensures even weight distribution.

Adjustable ratchet system ensures a customized fit that supports movement, while increasing comfort and productivity.

Soft, breathable inner-bib and long tuck-in collar for extra protection and upper body air flow.

From local and globally sourced components.

Protecting you for life's best moments.
